About

Leona Graves

Professionally and full-time since 2015, I provide Tarot and Oracle readings across global networks to those seeking guidance from a “seer”. Having experienced paranormal phenomena since childhood, I became fixated on knowing the unknowable.

With a Bachelor of Science in Psychology and continued Masters studies in music and visual media, I focus on ways to help others bridge the gap between science and art. After working in retail and medical offices, I was mentored for four years in psychic services. Taking to this knowledge immediately, I pursued a niche career, seeing consistent improvement in my abilities through reviews and feedback from clients. This work has led to fascinating events and a chance to connect with other spiritual practitioners.

I am fortunate to research and work in the field of parapsychology. I not only love but also find a release through these efforts for the varied traumatic events of my life, most of which I have detailed blatantly on social media. Assisting others both through spiritual and personal development allows me an opportunity to grow as a psychic counselor and tend my own gifts routinely.

Poetry

These poems are written lyrically, aligned with song structures, and inspired by different types of poetry, depending on how the style embodies the nature of the card it represents. For example, "Abandon" (Death) is an elegy, while "Nurture" (Empress) and "Nature" (Emperor) are odes to each other.

"Nothing" (The Fool), "Orbit" (Wheel of Fortune), and "Home" (World) are inspired by epic poetry and progressive rock. They represent the beginning, middle, and end of the Major Arcana Tarot system, and so are symbolized as such by spanning a rhythmically related story through all three chapters. Certain chapters connect to each other while others stand alone, like "Isolate" (Hermit).

Creative writing allows a flow of inherent knowledge to come forth, much like the process of tuning into precognition through various divinatory practices. I hope others find inspiration to write about their experiences, too. I would love to hear from anyone who creates their own Tarot influenced art. All feedback is welcome.

Publishing

Currently, the Major Arcana inspired collection titled “22 Years Hidden” is released digitally through GravesyardGifts.com as of 2/22/22.

When I began this project, it started as a memoir of events to provide a therapeutic release. As I ventured forward, it expanded into a more creative structure, soon aligning with the Tarot, then taking shape as poetry. I realized this system satisfied both a desire to express as well as offer navigation to others regarding the cards.

I decided to pursue this work further by taking on the remainder of the Minor Arcana, or all 79 (originally 78) cards. It is not a coincidence there is a bonus chapter and 22nd card added to the Major Arcana; I always felt something was missing between The World and The Fool. I'll let the chapter speak for itself.

It is important to me to publish this work independently. Please share with anyone you feel might enjoy these collections, because it will not be mass marketed through ordinary means.

Updates

The digitally produced material may continue to see edits as I build the remainder of the Tarot inspired poetic series. It might take years to finish the entire body of work. Upon completion, I will self-publish and sell a print version alongside an in-process "Graves Tarot" deck which will include the 22nd Major Arcana card titled "Transfigure". Items will be available through [Gravesyard Gifts](#) metaphysical shop.

Meanwhile, all digital versions will be accessible online with an opportunity to donate to a [charity](#) as thanks. I believe in the free distribution of information and art, having experienced the limits of impoverished situations multiple times. This is still a business, so I will eventually provide ways to generate income commercially, too. Updates will be announced.

Nothing

taking a step
off a cliff

will You catch me
in suspense?

my life in Your
hands, in Your
Omnipotence

i ask for
only a chance
to become
all You wanted
in Your great,
vast Omniscience

You are here,
Omnipresence

i am Yours

but, who am i,
if not Your
servant or Your
champion?

why bequeath these
Gifts from Claire?
in a place of
doubters and
skeptics on high?

leave me here
in this cesspit
bathed in dirt
and forgotten
till i die?

i trust You know
reasons why

Martian red bricks, gummed asphalt, broken glass; i crawl
a child of two running toward mom; i trip, i fall
split open my Third Eye

blood in the car, hospital bed mirror on wall
examine raw forehead Scar; pained by fear, i bawl
vivid dreams then arise

among ramshackled houses drafting alcohol
acrid faces; barking guns spit bullets that maul
born to countries of crime
Claire Gifts Voyance; mind theater delights and appalls
showing ways to avoid those predatorial
and undress worn down lies

attending dank schools with infested bathroom stalls
cowed teachers, mussed schedules, curricula banal
vacuous need apply

Claire Gifts Cognizance; flickers of knowing it all
the day was a dream; broken teeth by the mess hall
as prescience alumni

snake tails sink between serried aspens and swamp
squalls

crimpy elms camouflage carmine crocodile vaults
stale waters vivified

Claire Gifts Gustance; forehanded flavors of the trawl
trailing prime nightcrawlers hiding from mossy salt
sustenance simplified

grand fields beckon crowds toward mammoth rides that
enthrall

herculean stratospheres of swings mounted tall
unbuckled masses fly

Claire Gifts Tangency; touch warns hazardous installs
dwarfed within droves and baying caution, still, lines
sprawl

innocence petrifies

escalators misdirect in an endless mall
plastic fortunes presaged by cheap magic eight balls
coercing needless buys
Claire Gifts Alience; cherry ticket scents aisle
winner! models, racecars, electronics, and dolls
excrement aurified

wheeling beside matchsticks padding hills, feeling small
combing magnificence from rivers to icefall
traversing winding climbs
Claire Gifts Audience; "slow your drive" regard this call
startled deer behind corner leaps to survival
voices keep me alive

minute lost knowledge etched on ship decks with an awl
antique tales written in scars and pirated hauls
adventures docked and tied
Claire Gifts Empathy; unveiling haunted assaults
immobilized spirits long for hero's exalt
drift onward with the tide

on a cliff beholding emerald aerals
islets surface to carve a venous slate seawall
rough protrusions mount high
Claire Gifts Sentience; angels stand invisible
soft hand steadies my back while preventing a fall
sipping indigo sky

what is this

i hear

from You in Your wisdom?

unwrapping

presents

brings egomania?

cannot be

for me

i am special, different

You told me

did You?

am i making You up?

You made me

how can

i use them with purpose

if they are

not free?

what do i know of these

lessons to

learn with

conduct to honor rules?

i feel so

keen, yet,

i am another fool

talking to

myself

ergo, You spoke to me

Liberate

White pyramid, locked
Attempts eons before
Approaching to knock
Turned away, Nevermore

Reversing then skid down a slim trap door
Plunked in a timed engine and clocked
Candy blinking buttons unlatch a drawer
Rivets, clips, pins, shims, and spacers to chore
Caught in an underground cellblock
Attempt to solve this puzzle box
Too many parts; the trick is to ignore
Exiting hatch while room restocks

Wander winding corridors and explore
Beginnings end in a headlock
Rules of Physics from an arcane bookstore
Immortal barricades chipped at and gored
Decide to drop the tomahawk
And instead track my route with chalk
A glimpse as I stand defeated and sore
Reveals concealed passage to walk

Entry met by a quondam dinosaur
Who failed and now jealously mocks
Explaining mysteries while preaching lore
Admittedly a hungry carnivore
Through jungles, I am chased and stalked
Until ensnared in a wine frock
Escape may be accepting this Mentor
Who then swallows me as I gawk

Slide onto a boat with voices who warn
Whispers from shapeshifting bedrock
Stream between caverns as remarks outpour
Listen while some adore, others deplore
Quiet becomes screaming crosstalk
Choose who to attend or to block
Their resonance crashes my ship downshore
Still alive, I survive the shock

Have I reached the top?
Conquer apex splendor
Monument unlocks
Eminent Evermore

Reflection

god, am i dogma?
deified knowledge to come
seeker out plays understanding the duality
venerates silence in sound
subconsciously conscious sagacity
between two pillars

sanguine pillars

two between sagacity
conscious subconsciously
sound in silence
venerates duality
the understanding plays out
seeker, come to knowledge
deified dogma, i am god.

Nurture

To my stout Archon, I bequeath
the means for love perpetual

Worlds laid on an infinite wreath
Fantasies made conceptual

Dancing dissonant harmonies
Acceptance so all may exist
Preservation imperative

Cherubs and imps live artfully
Uncharted birth of every wish
Performing in Your narrative.

Nature

To my Inspirer, I direct
Grant beings a chance to evolve

A wealth of birth rights to protect
Judgmentless, all may be absolved

Staged among runts, prized prodigies
Records kept to define their rules
In perfection, dream migration

Through safe states of morphology
Build false holograms to rear jewels
In haven live Your creations.

Possess

Paging through Bibliomancy
Searching for direction
Treasure hunting Geomancy
Building vast collections

Crystal tossing Lithomancy
Foretelling affections
Melting lead Molybdomancy
Emblems of protection

Faith payments to command beliefs
Puppeted by demons
Constant desire to overeat
Beds ostracization

Trading strength for narcolepsy
Enslaved by midnight Suns
Wired excessive anxiety
Wage humiliation

Blessing others with what they seek
Still fertile Venusians
Share fairings to provide relief
Cease materialism

Dutiful tend territories
Unyielding Taureans
Fixed routines, soil conditioning
Planting satisfaction

Though sapient fetishes speak
Sheening explanations
Truth is forever within reach
If we only listen

Try unconventional thinking
Religion exorcism
One with Earth to provide its needs
Reciprocal connection

Soulmate

Beasts in bloom, from tall trees of keys collect
Lilac orchid clove rose incense hazed air
Stained saints prospect holes of lawless damp depths
Teaching earnest eros; roaring declare

Chests split, unlocked; fingers linger in gold
Sunburst eyes gleam; soft tongues trail veins snaking
Starry smiles shimmer unions foretold
Students of touch; practiced masters to be

Shapeless lips lead with lewd clues set in molds
Secrets stretch free; open, always learning
Skin swells; pulsing bodies raised, tossed, and rolled
Stink turns perfume; cultures ever burning

Candles spill red noble wax on parchment
Devour majesty in words unsent

Wonder

Raindrops spatter Hydromancy
Pointillism daydreams
Winds gusting trees Austromancy
Loud behesting debris

Comet tails Meteormancy
Fables flicker in streams
Cloud formations Nephomancy
Slushing porcelain cream

Skyward, a biga is gliding
Drawn by onyx equines
Faster and higher, advancing
Pilot primp and preening

Premonitions are abstracting
Falling gems intervene
Ample ideas interacting
Over-abundantly

Deep mirages shadow casting
Through calm aquamarine
Leggings and leather unclasping
Fervor gait softening

Icons fluidly romancing
Deciphering with ease
Lighten reins, horses relaxing
Releasing and flying

Wildest prospects surpassing
Clouds clearing beyond beams
Pearlescent palace refracting
Marbled wet statues gleam

Ornate hieroglyphs entrancing
Silver and gold linings
Ascending stairs of travertine
Emerging a Supreme

Energy

Isolate

tortoise meditates
lapis chill of bold lagoon

Orbit

Neon eyes select passerbys, gaping at leads
Mirror house with free entry; a winking sign reads:
"Step into Déjà Vu"

Hands in front guide the way, feebly palming cold glass
A narcissist's wallow; escape futile, alas
"Captive, I will make do"

Spooky entanglement; an opposite hand raised
My reflection bows and a voice articulates,
"Shadow me, follow through"

Shock! It's an actual parallel dimension?
A trick? Or is it some kind of new invention?
"Stop! What is this Vodou?"

My other face falls sullenly, hope deflated
Alone, cold, statuesque, sighing, and frustrated
"I have tried to reach YOU"

Reality settles; this cannot be a game
We speak and I notice we haven't the same name
"And more differences, too"

My doppelgänger fades into another face
Stumbling, I beg for guidance, expecting great grace
"Please, if only YOU knew"

The tragic life I learn of could have been my own
Corruption and murder, this one was not my clone
"How did I go askew?"

Visages twist, pulse colors of flesh stratified
Inquiring how many 'me's exist, a reply
"There are more than a few"

Gnarly red fists swiftly shatter icicle walls
A primal version emerges, warns with harsh growls
"Run! I may destroy YOU!"

A harrowing escape from the coils of pure rage
Talon marks; I never thought I could be this way
"Hope this world ends with YOU!"

Effete ensuing variant trembles meekly
A starved body, a broken world, speaking bleakly,
“The wrong side of a coup”

Why are these other lives bombarding me with guilt?
Is there someone who has lived it all to the hilt?
“Who is next in the queue?”

a genie floats softly by, advanced beyond sense
Consumes my mind, a new species and genderless
“Expand your seed of truth”

There is beauty in knowing what could have been worse
Contrasts to show me how my life is not a curse
“YOU have stoked my worldview”

The being dissolves, onto important matters
Back to mirrors, a perfect replica staggers
“Me again, tried and true”

We take every action in perfect unison
Words all matching, yet, somehow not the same person
"YOU could be me, in lieu"

Was this individual actually just me?
Alliance, and we breathe in the neutrality
"In YOU, I feel renewed"

Replaced by brilliance, a gravity unforeseen
Beauty of body, in walks a mind so stunning
"Love on sight, who are YOU?"

Captivating, sweepingly distinctive features
Our intense stares lock as we become one creature
"Absorb this billet-doux"

Instant romance; my soulmate within incarnate
Touch without touching; neither of us hesitate
"YOU are me; I am YOU"

Moments bleed wild rainbows into bland beige prisms
Too soon to change; instant death, is this narcissism?
“How did we part in two?”

We cry because it's over, with a parting kiss
Time already happened; moments always exist
“And then my love withdrew”

I need to know how far this goes; absolution.
Suddenly, I feel free; cost is execution
“Living can seek the new”

Every spent life pays in strife and pleasures alike
Balance occurs naturally by being alive
“Illusions will fall through”

Layers crisscross, collapse, collate, and evanesce
Galaxies compact, collide, and spawn new planets
“What YOU know, YOU now knew”

Pacing forward through the warm, ghostly, thickened air
My voices guide in choral, tenderly, with care
“We will always love YOU”

Surrender

Twilight songs croon hope
Gardenias breathe mist
Peaches cobalt aslope
Strolled a faint road, sun kissed

Juniper pond, teal ignis fatuus
Baited, trapped, hung from an old oak
Blind inside raven's feathery abyss
Thrash against sap strapped leafy chrysalis
With head below feet, gagged, and choked
Bloodlust Hunter tightens the rope
Mind swells perturbation; what will I miss?
Teeth and tongue gnaw through a cloth soaked

Arid air to sand mouth, my words now hiss,
"Observe this truce which I invoke,
Will you hold my hand or hammer my wrists?
Is this love or feasting? Please, make it swift,"
Claire's Gifts, all to which I devote
Nowhere nearby, all been revoked
Begging, "Let me see," my Keeper permits
Eyes freed, glimpsing only a cloak

"You've chosen wisely, but what's Your premiss?"

Except, a reply seems remote
Although bound, I jokingly kick and twist
Suspended humor, I cannot resist
Isolated like misanthropes
Suffocating from fire's smoke
Spiteful and mean as fun pivots to fits
Hushed as ashes blacken my throat

Embossing trees, to defeat, I commit
Prayer, another way to mope
Flooding memories and I reminisce
Deus ex machina deliverance
Descrying calm, my fever broke
Flora shimmers kaleidoscopes
"Mated, eaten... either way, I submit"
My Savior or Killer disrobes

Equity evokes
Converting altruist
My Abductor spoke,
"With this knife, I give bliss"

Abandon

foggy cemetery primrose path springs soul dust spores
graphite moths feast on immortelles as scorpions chime
perched below willows
contact deceased through spirit board

grainy possessed planchette whispers one word at a time

ghouls hover atop headstones; ouija rots into slime
rain of voices decays bodies, fertilizing gourds
masked vampiric nocturnal cavalry parade signs

kin surrounds to amputate Earth's umbilical cord
abrupt expulsion from turbid embryonic brine

moments reveal true meaning entering the sublime

Purity

Judgments in black and white; spectrums defined
Merged light surface contrasts the will of dark
Clear view: kill or be killed; who lives, who dies
Captured, frightened, tamed, bred, choked, whipped
burn marked

Unknown truths grow to show in the release
Choiceless roleplay atop stages robust
Ventures quest for knowledge; blameless, at peace
Devote to an issue; outline intrust

Voices all true; limit liars, for fair
Washed clean, kindly, and bathed in the sublime
Listen, witness; songs of echo-repair
Grating noises filter through as soft chimes

Eyes are pay of willing saviors above
Neutral notions; angels honor pure love
